

Mathew Hardy

matthardy.org ■ mdhardy@princeton.edu ■ +1-978-201-2602

Education	Princeton University PhD in Psychology Advisors: Thomas L. Griffiths and Jonathan D. Cohen	September 2018 - Present
	University of Toronto Honours Bachelor of Science with High Distinction Majors in Economics and Statistics, minor in Mathematics	August 2017
Fellowships & awards	National Defense Science and Engineering Graduate Fellowship	September 2020
	Summer School on the Cognitive Foundations of Economic Behavior	July 2019
	Summer Institute on Bounded Rationality	June 2019
	Centennial Fellowship in the Natural Sciences	September 2018
	Milan Surducki Memorial Scholarship	September 2014
Journal papers	Hardy, M.* , Krafft, P.*, Thompson, W., & Griffiths T.L. (in press). Overcoming individual limitations through distributed computation: Rational information accumulation in multi-generational populations. Topics in Cognitive Science.	
Talks & posters	Hardy, M. , Thompson, W., Krafft, P. & Griffiths T.L. (2020). Population-level amplification of perceptual bias. Talk presented at the 42nd Annual Conference of the Cognitive Science Society, virtual.	
	Hardy, M. , Thompson, W., Krafft, P. & Griffiths T.L. (2020). Population-level amplification of perceptual bias. Poster presented at the 6th International Conference on Computational Social Science, virtual.	
	Callaway, F., Hardy, M. & Griffiths T.L. (2020). Optimal nudging. Poster presented at the 42nd Annual Conference of the Cognitive Science Society, virtual.	
	Hardy, M. , Thompson, W., Krafft, P. & Griffiths T.L. (2019). Population-level amplification and suppression of individual biases. Talk presented at the 1st Symposium on Biases in Human Computation and Crowdsourcing, Sheffield, UK.	
	Hardy, M. , Callaway, F. & Griffiths T.L. (2019). Optimal nudging. Poster presented at the Multi-disciplinary Conference on Reinforcement Learning and Decision Making, Montreal, Canada.	
	Hardy, M. & Griffiths T.L. (2019). Demonstrating the importance of prior knowledge in risky choice. Poster presented at the 41st Annual Conference of the Cognitive Science Society, Montreal, Canada.	
Working papers	Hardy, M.* , Thompson, W.*, Krafft, P. & Griffiths T.L. Demonstrating and mitigating the impact of social transmission on biased beliefs.	
	Callaway, F.*, Hardy, M.* & Griffiths T.L. Optimal nudging for cognitively bounded agents: A framework for modeling, predicting, and controlling the effects of choice architectures.	

Teaching	PSY 251 - Quantitative Methods	Spring 2020 & 2021
	Assistant Instructor	
	Princeton University	
Relevant experience	Data Science Intern	June - August 2018
	Via Transportation	
	Research Assistant	August - December 2017
	University of Toronto, Department of Psychology Professor Susanne Ferber	
Skills	Research Assistant	May - September 2015 & 2016
	Massachusetts Institute of Technology, Department of Economics	
	Professors Jerry Hausman and Whitney Newey	
<i>Programming:</i> Python, R, Stan, Javascript, HTML, CSS, Julia, MATLAB <i>Software & tools:</i> LATEX, Git, Bash, Stata, Excel <i>Spoken languages:</i> English, Slovenian
